

# Biomedical Technology Support Centre (BSC)

- HKSTP's Biomedical Technology Support Centre provides all the R&D devices and technology support that startups need to conduct their research but beyond their reach.
- With easy access to over 150 pieces of life science equipment and tailored technical service, BSC can help the startups limited by insufficient funding or talent move faster to get their innovative products to the market.

Structure of  
Biomedical  
Technology  
Support Centre

Proteomic & Metabolomic Lab  
(5/f, 9w & 11w)

Chemical co-working Lab  
(CCC, 1/f 9w)

Flow Cytometry Lab  
(1/f, 15w)

Storerooms  
(9w & 17w)

Incu-Bio co-working Lab  
(17w)

Genomic & Imaging Lab  
(5/f, 9w, 7/f, 17w)
